Professional Summary

Full Stack Developer with expertise in React.js, Redux, Tailwind CSS, Node.js, Express, and MongoDB. Skilled in building scalable, responsive, and high-performance web applications. Experienced in RESTful API integration, authentication, real-time features, CI/CD pipelines, cloud deployment (Vercel, AWS), version control (Git), and Agile development. Strong focus on writing clean, maintainable, and production-ready code, delivering optimized user experiences and robust software solutions.

Education

Himachal Pradesh Technical University
Computer Science and Engineering
Dec 2020 – Aug 2024

Experience

Scale AI
LLM Full stack developer
Apr 2025 - Present
- Freelance Full Stack Developer at Scale AI in collaboration with G2i, specializing in AI-powered web applications and training AI models for full-stack development workflow.
- Experienced in building scalable solutions with React.js, Node.js, Express, and MongoDB, integrating APIs, and implementing LLM-based features for real-time data processing.
- Skilled in CI/CD, cloud deployment, and version control, with a focus on delivering production-ready, maintainable, and high-performance applications.
- Trained and fine-tuned AI models to enhance full-stack development workflows.

Internshala
ISP
May 2025 - Jun 2025
- Promoted Internshala's training programs through targeted digital marketing initiatives
- Facilitated campus outreach events to increase platform registrations
- Collaborated with student networks to drive user engagement and brand awareness
- Generated detailed reports on outreach performance and conversion metrics

Labmentix
AI/ML Intern
Feb 2025 - May 2025
- Developed machine learning models for predictive analytics
- Optimized data preprocessing pipelines to improve model performance
- Implemented and validated AI algorithms using Python and TensorFlow
- Collaborated with cross-functional teams to deploy scalable AI solutions

Unified Mentors Private Limited
Full Stack developer
Jan 2025 - Feb 2025
- Developed and maintained scalable web applications using the MERN stack
- Integrated RESTful APIs to enhance front-end and back-end interoperability
- Optimized MongoDB queries and improved application performance
- Collaborated with cross-functional teams to deliver agile software solutions

Projects

Streamify | *MongoDB, React, Express, Node.js, API, Tailwind css, Zustand, Tanstack query, Stream, React Hot Toast, Render*
- 🚀 **Deployed Link :** https://streamify-videocall-app.onrender.com/
- ○ **Github Repo :** https://github.com/Skiee9/Streamify
- Real-Time Messaging: Users can chat instantly with typing indicators and emoji reactions for better interaction.
- 1-on-1 & Group Video Calls: Supports video conferencing with screen sharing and recording capabilities.
- Global Connectivity: Connect with users worldwide to practice different languages and improve communication skills.
- Secure Authentication: Implemented JWT-based authentication and protected routes to ensure secure access.
- State Management: Efficient global state handling using Zustand for smooth UI interactions.
- Streaming API Integration: Powered by Stream API for seamless real-time messaging and video communication.

Fable & Co. | *JavaScript, HTML5, CSS3, Responsive Web Design, Git, CRUD operation*
- 🚀 **Deployed Link :** https://fable-co.vercel.app/
- ○ **Github Repo :** https://github.com/Skiee9/fable-Co.
- User Authentication: Sign-up/login with protected routes and session management
- Interactive Product Catalog: Dynamic product listing with search, filters, and sorting functionality.
- Shopping Cart & Checkout: Fully functional cart with add/remove items, quantity adjustment, and seamless checkout flow.
- Order Management: Users can view order history and order details.
- Responsive UI/UX: Designed pixel-perfect, mobile-friendly interfaces using React.js, Tailwind CSS, and Styled Components.
- Ensured high attention to detail in UI/UX design, resulting in an intuitive and user-friendly shopping experience.

Weather App | *JavaScript, Node.js, Git, HTML5, CSS3, Responsive Web Design, RESTful APIs, Tailwind CSS, Geolocation API, Local Storage*
- 🚀 **Deployed Link :** https://skiee9.github.io/weatherapp/
- ○ **Github Repo :** https://github.com/Skiee9/weatherapp
- Real-Time Weather Updates: Fetches and displays current weather conditions for any location.
- Search Functionality: Users can enter a city name to retrieve accurate, location-based weather information.
- API Integration: Integrated with an external weather API to provide up-to-date and reliable data.
- Responsive Design: Fully optimized for desktops, tablets, and mobile devices for seamless user experience.

Skills

Technical Skills: MongoDB, Express.js, React, Node.js, Redux, RESTful APIs, JavaScript, Git, Tailwind CSS, TanStack Query, CI/CD

Soft Skills: Attention to Detail, Problem Solving, Adaptability, Time Management, Teamwork, Effective Communication
